Dear Harold:

After several days of effort I must give up in my attempts to have the money sent to you from this end without an invoice and am enclosing an invoice for you to sign and mail back to me in the stamped enclosed envelope. The bureaucracy covers everything with paper.

Today George came by and gave me a glowing description of his and Gary's (Chriske) telephone conversation with you. They were delighted to have Harold Weisberg talk to them and with such ease and so clearly on two subjects! You genuinely stimulated them to do their best in an objective way given their limitations and strengths. Both wish to expand their papers, but Gary especially is consumed with the question, especially the fact of Tague's relationship to the cover-up, and all that implies to history and to reality. Ultimately I hope to xerox everything Tague item he generates and copy every tape etc. and file it separately in a Tague file to be added to and expanded for research purposes as the years go on.

The two enclosed letters are self explanatory. I did not send Howard a copy of the letters. The one on Lane comes from the DeAntonia files on Rush to Judgment and has an excellent sentence in it that you will cherish. I am not clear on the public use of this letter so I send it to you in confidential category only. As I work through the file I will send you more.

I am working on CD-1 today and am looking for themind stuff.

Your casettes will be assigned an arbitrary locating number and a gneral title of Harold Weisberg Assassination Collection or Harold Weisberg Archive and will be duplicated. Thus HW-101-c --- Later I will send you a typed format with brief running description of the several tapes. your instructions on a couple will be followed.

Dreyfus announced for the governorship and will keep on as Chancellor. He is running as a Progressive Republican.

I have been literally swamped with classes the whole semester but now can, to quote a recent famous president, see the light at the end of the tunnel.

Our kids are not quite sure what you and Ilil do except that you work with documents and are looking for Presidnt Kennedy's assassin. They remark about you both from time to time and were tickled to have spied your name Harold in the wire release on the FBI documents. Elaine sends her best to Lil as does her husband.

adios

Dave
